

FESTINIOG RAILWAY COMPANY ARCHIVES

VOLUME 1. ADMINISTRATIVE, LEGAL AND OPERATIONAL RECORDS

Introduction

The records deposited at Gwynedd Archives, Caernarfon at XD97/ consist of those held by the Festiniog Railway Company in 1991 that relate to the period up to the closure of line, together with items borrowed by J.I.C. Boyd that were returned by his Executors. It is a rich archive of interest to economic, social, industrial, local and railway researchers.

The scope of the collection

In addition to records generated by the Festiniog and Welsh Highland Railways, the collection also contains documents relating to the railways with which the Festiniog Railway was associated, for example the North Wales Narrow Gauge, Cambrian, Great Western and London & North-Western Railways. Reports and correspondence with the quarries and slate merchants and other customers shed light on these businesses.

The arrangement of the collection

Michael Seymour was Archivist to the Festiniog Railway Company until his untimely death. His division of the collection into three parts has been retained and so the catalogue has three volumes:

- Volume 1. Administrative and legal and operational records e.g. correspondence, agenda and minutes of meetings, reports etc.
- Volume 2. Plans, drawings and maps for which Michael's original categorisation and numbering systems have been retained
- Volume 3. Notices, timetables and posters.

Arranging the administrative and legal records presented challenges, but in general terms it follows the approach taken by the Gwynedd Archives and Museum Service. Documents relating to corporate matters have been placed before operational records. Single documents have been individually catalogued as they came to hand save for files that were catalogued as one item. These files were created in the later years of the Company: some had been stripped but, where possible, they have been reassembled.

The administrative, legal and operational records have been arranged under subject headings e.g. Permanent Way, and then in chronological order. Inevitably there will be disagreement with the categorisation of some items. Problems were encountered since a number of documents do not carry a date, but Michael Seymour's research provided some answers.

Documents that relate to both the Festiniog Railway and the Welsh Highland Railway have been placed in the main sequence, whilst those relating solely to the Welsh Highland Railway are listed in a separate sequence.

The correspondence of the Directors, General Managers and Administrative Staff and Heads of Departments has been annotated to assist researchers to identify documents, and this will be of interest to those who cannot visit Caernarfon. Several Officials wrote letters rather than internal memos and others used memos and letters though the content might be similar - they took the type of stationery to hand. For this reason all internal correspondence has been described as being 'letters' reserving 'memorandum' for longer documents. A bundle consists of two or more documents.

Locating documents

In making a search take into account:

- The collection is divided into three parts. When searching for documents on some topics it may be necessary to search more than one volume of the catalogue. Examples include timetable information that may be found in correspondence from a General or Traffic Manager, or in timetables as such. Some sketch plans may be found in the drawings, or in correspondence from the relevant Department.
- When making a keyword search keep in mind variant spellings e.g. 'wagon' and 'waggon', 'brake' and 'break' and place names such as Tanygrisiau, Tan-y-Grisiau, and Tanygresia etc.

Not all of C.E. Spooner's letters and notes carry a date, and even after careful checking some errors will have crept in. Amongst his papers are notes and figures the subject matter of some can be identified reasonably accurately, but there could well be errors.

Jones...].
XD97/22515	1882	Nov. 14	LETTER: H. Beaver Roberts to C.E. Spooner "I have been endeavouring ...to bring about the construction of the proposed extension of the Croesor & Portmadoc Railway to Beddgelert. It has always appeared to me that the line to Beddgelert ought to belong & that it eventually must belong to your Company. Possession of it would give them undivided power over the Port and the key to all future extensions of the narrow gauge system in the only direction in which they are possible... transferred to your Company they paying for it by shares in their Company to the amount of £50,000... Will you kindly submit my proposition to your Directors..."

XD97/22519	1883	March 1	BUNDLE: H. Beaver Roberts to C.E. Spooner re Portmadoc & Railway. "I am satisfied that it would be useless for me to put the proposal contained in your of the 27 th ult. before my people here; they are men of business, & would not entertain it for a moment. If your Company would agree to work at 55 percent until the gross receipts amount to £6000 a year the working per centage then to be reduced to 50 per cent, I might perhaps be able to carry a negotiation through..." Correspondence Received from the Executors of J.I.C. Boyd *see also the closure and re-opening of the Festiniog Railway.*

XD97/26000	1947-54		BUNDLE: Correspondence between J.I.C. Boyd and Tom Davies (formerly a Driver and from a family with a long association with the Festiniog Railway). It consists of 16 letters and notes in which Boyd asks questions of Tom Davies sometimes sending a questionnaire, with the replies from Tom Davies, and an undated copy of a letter from E.E. Smith to Tom Davies. This refers to a letter George Hearse received from Tom Davies. It includes Smith's comment about whether to keep Robert Evans "think it would be better to get rid of him... will bear in mind the suggestion to engage a retired BR Inspector to go over the line, and a retired Signaller... waiting for the Company to produce some accounts... would you be willing to work for us ...could not guarantee permanence ... suggest you accept a Directorship ... knowledge of local conditions ... we feel we should have at least one Welshman on the board."
XD97/26001	1949	Aug. 22	LETTER: H.E. Meats to J.I.C. Boyd following up his letter in the <i>Stephenson Locomotive Society Journal</i> August 1949, knew the line and hoped that the efforts to save it from final destruction would be successful. Suggests approaching W. Butlin, the holiday camp proprietor, as it would provide an additional attraction for summer visitors.
XD97/26001a	1949		BUNDLE: W.O. Skeat and J.I.C. Boyd consisting of three letters and 2 copies of a report. Skeat writes that the news about the Festiniog "is rather disquieting" and asks if publicity or appeals in the Press would help, suggesting a letter in the <i>Railway Gazette</i> but would like to see <i>The Times</i> do something about it. Skeat thanks Boyd for returning the Casserley photos as illustrations for his article in the <i>Stephenson Locomotive Journal</i> that Skeat edits and encloses a cutting of a letter by Eric S. Tonks concerning the preservation of the Festiniog Railway who fears it would be a waste of money, which was set in type but Skeat decided not to publish as it might have been unhelpful, asks him to get a letter that would be more supportive. Boyd replies that he is grateful for withholding the letter... "we are as aware as Tonks that at best the thing is a gamble, but this should make us all the more cautious..." ... "if

only half these potted enthusiasts realise that what we do e.g. (for one thing) that unless a wheel turns on the track before next August the land will revert to its original owners (etc.) and that there is not future in suggesting such Utopian schemes as ‘a group of altruistic enthusiasts’; there are no such persons, if there were, they would have done something years ago...”, he indicates that they are waiting for the audited accounts, same auditor who audited the books in Col. Stephens time is doing it. Copy of notice for the journal describing the meeting held in April at Portmadoc.

XD97/26001b 1949 Oct. 27

LETTER: J.I.C. Boyd to Messrs. Motor-Rail Ltd asking for descriptive literature concerning their Simplex locomotives.

XD97/26002 1949-51

BUNDLE: Correspondence between E.E. Smith and J.I.C. Boyd. It consists of 36 letters and notes. E.E. Smith follows up J.I.C. Boyd’s letter in the *Stephenson Locomotive Society Journal* August 1949 indicating he has a “...certain amount of capital available and a good deal of spare time...” and “feels strongly that the Festiniog should not be allowed to disappear...”. He arranges to visit the line with a friend who has more technical knowledge. Boyd writes of the need for a long term plan – the line should be relayed along Madoc Street to Snowdon Street, Harbour Station should be retained, Boston Lodge should be closed completely, Minffordd Exchange Sidings and loop would be dismantled, Tanybwllch would be the first temporary terminus, at Blaenau Festiniog all passenger traffic would terminate at the LMS Station, all other trackage to be taken out, and provides thoughts on slate trains, tourist trains, a local shuttle service with a railcar, a railbar taken to Blaenau each day for serving snacks, leasing the “lower station building Port”. They meet and are shown over the Works by Robert Evans, and talk with the Rev. Phillips and Commander Styles who feel they could count on the support of Portmadoc Town Council. Smith hopes to meet C.E. Davies and has arranged for a valuation. Boyd talks with Rev. Phillips, who had been talking with influential people at the quarries, the Harbour is to be dredged for the ‘Florence Cook’. The National Provincial Bank holds shares and expects the line to go into liquidation shortly, the news is spreading despite their caution. Boyd suggests to Smith that has an independent valuation made of the line and considers liabilities, but he has invested £500 in his book. Boyd consults his stockbroker for advice, which is to consider Cohen’s offer and that he may have to go to £10,000 and float a new one and get rid of Evans. Discusses the acquisition of shares. After the valuation Boyd feels that Smith might offer £9000 and takes into account the value of scrap and the sale of the properties owned by the Company. Smith discusses take-overs by U.S. enthusiasts and the use of railcars. Boyd gets enthusiastic about Swedish railcars after Smith sends a brochure to him and mentions talking with Arthur Rimmer describing his experience riding on Cohen’s demolition train on the Welsh Highland. Boyd passes on advice from his

stockbroker about the purchase of shares and liabilities. An L.M.S. commercial representative who is enthusiastic about trips over the line visits Boyd. Boyd re-reads the 1923 Act noting salient points. Smith discusses the Festiniog question with a relative who is also his solicitor who advises taking the line on a one year lease with a view to purchase, but he sets down his objections to operating the line on a lease. Boyd does not think this is a good approach. Smith says he will have to think carefully. Boyd refers to the offer of a Directorship for Tom Davies – a wise move, and he hopes the accounts will be ready the following week (January 1950). Boyd suggests that Smith should seek permission to get started, but Smith needs to see the accounts first, George Hearse has suggested a horse-bus and steam-boat as added attractions. Later in January Boyd is getting frustrated and writes of details of the offer they should make. The question as to whether the Ministry of Transport would object to re-opening is raised by Boyd. Smith decides it is best to lie low and discusses additional expenditure. Smith writes to Rev. Phillips in May 1950 that he has made an offer for the assets of the line, but it is lower than that of the scrap merchant, asks him to put a word in with the Clark to the Town Council. In August Smith writes to Boyd to say he has very reluctantly decided to abandon the Festiniog scheme “since Davies seems to be unwilling to make any move...” wants to purchase Merddyn Emrys and writes of a scheme to acquire the North Sunderland Railway. In January 1951 Boyd writes to Smith that Portmadoc Town Council have asked for the names of those who are supporting the venture financially, and says that an offer has been withdrawn, he feels the Council are trying to get the line for their own use. Smith replies that this supposition is correct he might be prepared to go 50/50 and that his name can be given to the Town Clerk in confidence. An undated letter but probably January 1951 from which point Boyd ends the correspondence.

BUNDLE: Correspondence between J.I.C. Boyd and F.K. Davies consisting of four letters and two memoranda. Boyd thanks F.K. Davies, a chartered surveyor, for his realistic view of the practicability of re-working the Festiniog Railway, responding to the points he has raised that the standard and narrow gauge lines are adjacent at Blaenau where it would be possible to arrange coaling and maintenance, the GW and LMS tours could be revived, Butlin and Ian Allen have been approached. A sheet from Boyd gives a list of people who can provide assistance. F.K. Davies replies that his system for Penrhyn is “out”, notes that Boyd is writing to Smith and says the railcar business can wait and contemplates taking two days walking the line. F.K. Davies writes again to Boyd in June 1951 reminding him of the earlier contact, had heard it was being sold for scrap, has written to D.S.M. Barrie P.R.O. to the Railway Executive suggesting that a Fairlie locomotive be preserved and encloses a copy of the proposal. Boyd replies to F.K. Davies – had hoped he would have contacted him before

writing to the Railway Executive – could have saved him much trouble. The railway is not to be sold for scrap, a small group has approached the scrap merchant to buy a double Fairlie, and a Committee has been formed in Port and is investigating “ways and means for a limited re-opening” ... not at liberty to disclose the steps taken to date. The copy carries a note that the loco be obtained privately and space leased on the Vale of Rheidol for exhibition purposes – maintenance to be found privately. Boyd in an undated memo lists 12 points that might be taken up with Mr. Davies, which cover questions of access to premises, files, records etc.

XD97/26004 1949-51

BUNDLE: Correspondence between George Hearse, Light Railway Transport League and J.I.C. Boyd consisting of 9 letters, memoranda and notes. Hearse follows up Boyd’s letter in the *Stephenson Locomotive Society Journal* August 1949, and mentions his friend Mr. [E.E.] Smith offering help with the finance and his railway experience having been a premium apprentice at Darlington and running shed training. Would forget the idea of a railcar suggesting an old motor engine on a wagon body with a chain drive for about £80 and restoring the track but cutting one foot of each end and redrilling, encloses a list of F.R. engines. Hearse visits the Works with the assistance of the Rev. Phillips after Mr. Evans “was not keen”, comments on the condition of rolling stock and changes to the buildings, suggests that Will Jones would be a good tracklayer. A month later Hearse asks for Boyd’s opinion on his last letter and encloses a coaching list, had seen Smith and speculates on the signal system, shortage of cash and locos, and the need to complete the loops at Penrhyn, Ddauilt and Tan-y-Grisiau, and asks for his views and for the address of Tom Davies. Boyd replies about the need to get the Simplex, Princess and Taliesin in working order without delay, comments on the proposals re coaching stock and considers he is being unnecessarily ‘big’ about the signalling and provides a sketch. Hearse replies agreeing with Boyd’s views on working the line and asks him to give Smith a staff list when they meet, can lay his hands on “... some good loco people”, and encloses a list of staff required and their duties. Boyd prepares a list of costs of operating the line and a list of relevant legislation. Hearse writes after meeting Boyd at Portmadoc and notes that the new Manager at the Royal Sportsman has offered £100 for the scheme to reopen the line, Teddy [Smith] “does not feel able to carry the whole burden himself” but is prepared to help, Hearse still willing but try to keep Teddy interested. The correspondence in this sequence jumps from January 1951 to September when Boyd writes of “your confusion is justifiable” and suggests he goes to a meeting, makes points about the Portmadoc meeting called by the local authorities, the Portmadoc Committee has done nothing and the local authorities will “not put one penny piece further into railways (this is after the Welsh Highland fiasco)”, the Committee feels the line is too big a proposition to be run by volunteers, he

doesn't have confidence in Mr. Heath Humphrys' plans and is awaiting a reply from him, remains keenly interested and it is a big undertaking. An undated letter to George Hearse from H.J. Wright, son of a quarry owner and mining engineer, who is distressed to hear of the proposed scrapping of the line and offers his support having been in the Loco Dept. of Victorian Railways Australia – has faith in the slate trade.

Boyd to Editor, *The Leader* refers to a letter by George Hearse indicating what happened to the Welsh Highland Railway “is purely irrelevant”, “The Festiniog Company are willing to sell, and if the figure is more than can be raised through the ranks of the townsfolk and enthusiasts, then has the Welshman lost his power of bargaining with Welshman?”, refers to the Talyllyn, infers that persons on the Council are sabotaging the lead the Council took two months ago – signs himself as Talyllyn Rly: North Western Publicity Dept.; Samuel Parry to J.I.C. Boyd “having been in touch with Mr. Kidner*Narrow gauge rails* ...has been a never ending source of pleasure...”. Indicates it is a laudable project but wonders whether ... “such a struggling system, devoid of contact with places of interest arouses sufficient ‘popular’ interest to ensure a return on the outlay”... considers the preservation of a Fairlie “...if only to show that the immortal R. Stephenson was wrong when he said it couldn’t be done on the gauge”. Refers to the recent death of Sir Hayden Jones and speculates on the future of the Tal-y-Llyn Railway and wonders if it would be possible to take it over. Questions whether anyone has taken particulars of the locos and rolling stock on the F.R; J.I.C. Boyd replies that the Festiniog Rly was not an ill-planned scheme, after 12 months negotiating we were unable to agree a price and consequently abandoned the scheme. Plans in hand for the Tal-y-Llyn ... “cannot agree that volunteer labour used extensively would be satisfactory...”. Comments that enthusiasts are anxious to have the advantages of these railway ‘treasures’ without the risk of having to maintain them.

Portmadoc Town Council has “well-received” his suggestion that the Goods Shed could be converted to “a small and simple museum”, would be very pleased if space could be found at York for one of the engines.; D.S.M. Barrie to J.I.C. Boyd replies that the difficulty would be one of space, have no space for two full-size engines of their own but the smaller dimensions of a Festiniog engine might be in its favour.; D.S.M. Boyd has seen a newspaper cutting stating that he is interested in purchasing a locomotive from the Festiniog, draws attention to the new Company formed to takeover the Tal-y-llyn, and wonders whether the same could be done for the Festiniog. Boyd to Peter Davison [giving incorrect title of his journal] writing in a hurry but indicating the "position is complex legally and financially, and I doubt whether more than two of us appreciate its complexity. Certainly Mr. Humphrys does not." Boyd sets out the position of his group and says Mr. Humphrys attended the first meeting in Portmadoc "nice fellow and very sincere" but he cannot get any policy from him. He sets out the financial

position, and says that the more he learns about the Festiniog the more he is amazed that it ran as long as it did. ... But I honestly think to support Mr Humphry's [sic] scheme without knowing more about it than I do, would be throwing the £1 at 14/6 after the £ at 20/- ." P.S. Not forming any Society; J.I.C. Wright had worked for the Victorian Railways in Australia and had written to *The Cambrian News* stating "my disgust at the idea of selling the line for scrap", offers his services as a relief driver, would consider investing £100 and is joining the Tal-y-Llyn Railway Society.; J.I.C. This is how it should be." Welcomes his offer of assistance.; H.J. Wright to J.I.C. Boyd wondering whether it would be possible to get support from "our American friends" though noting that local interest is of prime importance. He is fed up with red tape – drives him crazy; H.J. Wright to J.I.C. Boyd writing to thank Boyd for a visit to the line, the only way that "Lein Fach" will reopen will be by private enterprise "with no reliance, whatsoever, on any public body...". Evan Davies seeking a meeting to discuss the matter of the Railway and suggesting a day and time; J.I.C. Boyd to C. Evan Davies sorry time of the meeting is not convenient and offering an alternative; J.I.C. Boyd to C. Evan Davies reminding him of his visit and the discussion about the only method acceptable to Davies was to offer for the Debentures, the action taken so far concerning finance, and the lack of a reply to the enquiry about leasing the line. Aware of "a certain party from Bath" and that the Railway is deteriorating, "willing to study any offer or suggestion which your Board may make". Stresses the urgency of the situation and that after the end of the year the deterioration has now reached the point where "the value of the concern as a

commercial undertaking is nil” and asks for his considered reply [3 copies]; J.I.C. Boyd to C. Evan Davies re the confusion and involvement of Mr. Heath Humphreys [sic] who is not connected with me but who is giving my name to “lend support to his venture”, he is very critical of him and he does not know how to operate the Railway. Boyd has a clear picture of Evans’ position and suggests a trial season. Now know this cannot be done with a lease and wonder whether Evans has considered this. “Short of this, there appears to be no future for the railway...”. “Debenture and shareholders might take a wide view and make a philanthropic gesture in the manner which the Tallyllyn Directors took last year, and donate debentures and shares to a non-profit-making organisation...”; Information extracted from *The Stock Exchange Year Book 1950* concerning the Company, and questions about the intentions of the Board.

Boyd after visiting the Festiniog Railway and talking with a woman in the Cob Café visited the Rev. T. Phillips. Piercy considers that the railway could be run again for a “a comparatively small amount of money”. Feels it would need very little effort to start again for the next season; J.I.C. Boyd to Edward Piercy indicating that the position is very complex and “it is not for want of personal effort that nothing has been done”. Feels his estimation of the amount of money and labour required are “very wide of the mark”; Edward Piercy to J.I.C. Boyd indicates that he understands that there are difficulties and the longer it is neglected the more that costs will rise. From his enquiries in Portmadoc knows there is a strong feeling that something should be done, and asks for the name and address of the Secretary of the Company so that he can contact him – knows the officials of the National Provincial Bank. Perhaps a meeting could be arranged?; J.I.C. Boyd to Edward Piercy agrees with his views on the deterioration of the line. Describes the meeting at Portmadoc and action taken so far. Has 20 people who have been interested for over 5 years and if he is in a position to take matters further he will be pleased to put them in touch, but “it strikes me as a curious thing that your interest should only be aroused at this late stage”. Indicates that if Piercy has something concrete to offer he would be pleased to see him in Manchester.

FESTINIOG RAILWAY COMPANY ARCHIVES

Vol. 2. PLANS, DRAWINGS AND MAPS

Introduction

This volume list the plans, drawings and maps stored at Harbour Station until the early 1990's together with items returned by the Executors of J.I.C. Boyd. Over time damage had occurred but with the aid of grants and donations the Conservation staff at Gwynedd Archives and Museums Service have repaired much of the damage. A collection of working drawings is maintained at Boston Lodge.

The arrangement of this volume

Michael Seymour devised a categorisation and numbering system that has been retained. The entries have been enriched by details of the type of medium and whether the drawings and maps have been coloured. Many of the items are works of art in their own right.

Copying the maps and drawings

Many are large and have been encapsulated which both preserves the originals and facilitates handling. Copies may not be made by visitors using their own copying devices, however, before encapsulation the drawings were microfilmed. A copy has been deposited at Gwynedd Archives Services where there is a reader/printer and staff can supply copies for a fee.

Locating documents

When making a search there are some points to take into account:

- The collection is divided into three parts. When searching for documents on some topics it may be necessary to search more than one volume of the catalogue. Some sketch plans may be found in the drawings, or with correspondence from the relevant Department.
- A search for items on a specific topic may yield results, but challenges are presented by differing spellings e.g. 'wagon' and 'waggon', 'brake' and 'break' and place names such as Tanygrisiau, Tan-y-Grisiau, and Tanygresia etc.

FESTINIOG RAILWAY COMPANY ARCHIVES

VOLUME 3. NOTICES, TIMETABLES AND POSTERS

Introduction

Volume 3 of the catalogue lists the notices, timetables and posters that had been stored at Harbour Station until the early 1990's, to which has been added items borrowed by J.I.C. Boyd and returned by his Executors. Over time the collection had been damaged but with the aid of grants and donations the Conservation staff at Gwynedd Archives and Museums Service have repaired much of the damage.

Arrangement

The numbers commencing XD97/ indicate the location of items within the Caernarfon Record Office of Gwynedd Archives and Museums Service. It appears to have gaps. A first listing was based on one compiled by Michael Seymour in April 1967 but on checking it was found that a number of items that existed at this time are now missing. The original numbers allocated have been retained in the hope that some items that have been 'borrowed' will be returned as happened after J.I.C. Boyd died.

The collection is arranged as follows:

- Notices, rules and regulations etc.
- Timetables
- Excursions, holiday arrangements, handbills and cheap tickets etc.
- Maps
- Festiniog & Welsh Highland Railways: miscellaneous
- Local advertisements
- Miscellaneous

Locating documents

In planning a search take into account:

- The total collection of the Festiniog Railway Company archives is divided into three main parts. When searching for documents on some topics it may be necessary to search more than one volume of the catalogue, for example some timetables may be found in this volume, or in volume 1 filed with correspondence involving the Traffic Department and other Railway Companies.
- A WORD search for items on a specific topic may yield results, but remember that there are, for example, variant forms of place names: Tanygrisiau, Tan-y-Grisiau, and Tanygresia etc. and of the spelling of 'timetable' and 'time table' etc.
